Unity Physician Partners Adds Leading Memphis Physician to Medical Home Team

Emerging medical/behavioral health practice adding experienced, local staff in expanding Memphis patient-centered medical home practice.

FRANKLIN, TN – Unity Physician Partners, Inc. has added Dr. Stephen Winbery to its growing staff at Unity Medical Clinic at Getwell. Dr. Winbery will join noted Memphis practitioner, Leo Rourke, in the fully-integrated care model for medical and behavioral health. Winbery comes to Unity Medical Clinic from Delta Medical Center, where he was an attending ER physician and hospitalist, as well as a family practice physician.

Dr. Winbery has practiced in Memphis at the VA Medical Center, University Methodist Medical Center and the Regional Medical Center. He also served as a Medical Director at the Southern Poison Control Center. A graduate of Louisiana College, Dr. Winbery earned both a Doctor of Medicine and Doctor of Philosophy degree in pharmacology from Louisiana State University. He is certified by the American Board of Internal Medicine and has an extensive list of publications and teaching assignments, as well as membership in numerous medical professional organizations.

“We are most proud to have another leading Memphis physician join our growing team at Unity Medical Clinic,” says Unity’s Chief Medical Officer and co-founder, Dr. James Geraughty, MD. “Dr. Winbery’s expertise and partnership will have measurable impact on how healthcare is delivered in Memphis and the Midsouth.”

The Unity Medical Clinic model aligns strategically with Unity’s mission to not only fill the gap of those underserved medically while managing behavioral health problems, but encompasses defined models of care for diabetes and other chronic diseases, as well. This new model has gained growing and widespread acceptance from almost every insurance carrier in the State, as it has demonstrable results for improved outcomes and significantly reduced costs to patients and insurers.

Unity’s footprint has recently expanded from its three-clinic base in Nashville to Cookeville and Clarksville, TN and Bloomington and Columbus, IN. As a joint partner with Centerstone Behavioral Health of Nashville, Unity offers services in conjunction with Centerstone’s existing clinic footprint and beyond.

About Unity Physician Partners:

Unity Physician Partners offers medical care and ancillary services in a medical home environment to the insured, uninsured, and those underserved through traditional healthcare models. UPP's network of Unity Medical Clinics provides behavioral and physical health services in an integrated model of care, greatly improving outcomes and controlling costs for patients with health conditions such as depression, diabetes, heart disease, and other chronic health issues. Steeped in innovative healthcare cost-containment models, Unity's founders have led healthcare change at Windsor Health Plan, HealthSpring, and Surgical Care Affiliates.
